Timothy Ajayi

Junior AI & Machine Learning Engineer | Data Scientist

+4917656959482 tajayi669@yahoo.com www.linkedin.com/in/timothy-ajayi-de Bremen Germany

PROFILE

Junior Data Scientist with hands-on experience in machine learning, AI, and data-driven applications. Experienced in Python and SQL, with practical experience building ML and AI solutions from data analysis to application development

SKILLS

Python | Machine Learning | Generative AI | RAG | LLMs | SQL | scikit-learn | Pandas | TensorFlow | Data Analysis | Agentic AI | LangChain | Deep Learning | FastAPI | Docker | Feature Engineering | Git

PROJECTS

AI Portfolio Assistant

10/2026

Python • RAG • LLMs • FastAPI • Gemini Embeddings • BM25

- Developed a RAG-based AI assistant that answers questions about projects, technical skills, and professional experience using a dedicated portfolio knowledge base
- Implemented hybrid retrieval combining semantic search and BM25, query routing, and a FastAPI interface, and integrated the assistant into a self-developed portfolio website

BundesHost | Tourism Forecasting Platform

05/2026

Python • FastAPI • Streamlit • Docker • PostgreSQL • MLflow • Statsmodels • Time Series Forecasting

- Collaborated in a team to develop a platform for forecasting tourism metrics and integrated forecasting models through FastAPI and PostgreSQL into a Streamlit application
- Used MLflow and Docker for experiment tracking, model management, and production-oriented deployment

Customer Churn Prediction

03/2026

Python • scikit-learn • XGBoost • LightGBM • Streamlit

- Developed a machine-learning solution for predicting customer churn, performing data analysis, feature engineering, and preprocessing to identify key churn drivers
- Compared Logistic Regression, Random Forest, XGBoost, and LightGBM for identifying customers at risk of churn and presented the results through an interactive application

PROFESSIONAL EXPERIENCE

Event Operations Coordinator

FrachtRaum

05/2021 - 03/2025 Hamburg, Germany

- Independently managed and coordinated operational processes across two locations, ensuring day-to-day operational readiness
- Managed multiple parallel tasks, coordinated preparations, and maintained a high standard of execution
- Worked directly with management and improved operational processes through proactive problem-solving

EDUCATION

AI Engineer – Data Science and Machine Learning Engineering

SPICED Academy | neue fische

11/2025 - 06/2026

National Diploma (ND) in Mechanical Engineering

Nuhu Bamalli Polytechnic, Zaria

11/2012 - 01/2015

LANGUAGES

English Fluent **German** Upper-intermediate (B2)
